

**Become  
a member of  
the dynamic  
Applus RTD  
team!**

**Applus RTD** is a global leader Non-Destructive Testing and Inspection (NDT&I), delivering advanced solutions for compliance and quality testing through to integrity management for onshore and offshore installations. We are looking for Technical Specialists committed to excellence in their own dedicated fields, who will help enhance the safety, reliability and productivity of our clients installations all over the world.

## World Wide Opportunities

Applus RTD have centralised our resourcing function and our UK Business Unit now acts as one of our hubs for Global Recruitment.

We are looking for motivated and skilled technicians to fulfil demand across the world, both onshore and offshore, for contracts of varying lengths. If you have experience in:

- Non-Destructive Testing
- Advanced Non-Destructive Testing
- Rope Access
- Asset Integrity Management
- or any other related area

Please send us a copy of your current CV, including contact details, to [uk.recruitment@applusrtd.com](mailto:uk.recruitment@applusrtd.com) Please put your discipline in the subject line of the email eg: Level 3 Rope Access, UT 3.8 etc and we will contact you with details of current opportunities.

We offer world class terms and conditions and we are committed to looking after our people as we recognise our people are our most important asset.

We are currently reviewing our contracts with a view to offering permanent employment opportunities to our technical specialists.
